SIM Cohort-3

The ABCs of SIM:

How HealthTeamWorks works with your practice to get the most out of your participation

Who we are & What we do:

HealthTeamWorks is currently providing coaching and HIT support to primary care and pediatric practices in cohorts 1 & 2.

Your Partner of Choice in Transformation

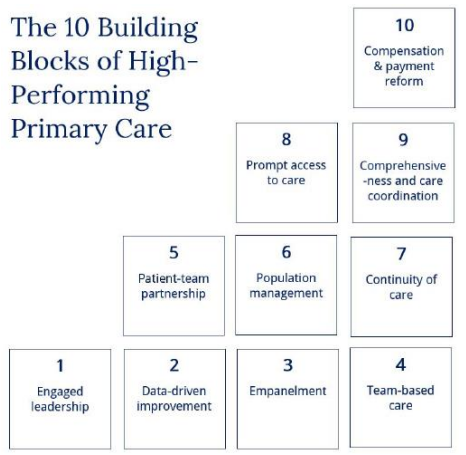

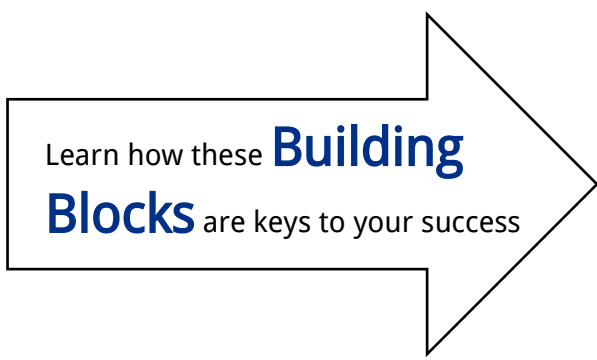

Cohort-3 Accepting Applications
Deadline: January 10th

The Colorado State Innovation Model (SIM) will help 400 primary care practices and four community mental health centers integrate behavioral & physical health during its four-year time frame. HealthTeamWorks is currently working with 49 SIM practices. Learn more about the financial incentives and benefits of participation by visiting the SIM Website at bit.ly/2yNCSxT.

Alignment

Many practices are managing multiple value-based plans. We can work with you to improve your systems for reporting to get the most of your engagement.

Coaching

Ask questions and customize an approach that works for you and your practice. We have practice facilitators to guide care teams in change and Clinical Health Information Technology Advisors (CHITA) to help you optimize technology.

With more than 20 years of healthcare transformation experience, our approach fosters sustainable improvement for organizations to succeed in today's changing healthcare environment, which is becoming more regulated, expensive, and complicated to navigate. We enable our clients to achieve measurable improvements in healthcare delivery through deep client collaboration and a shared commitment to achieve improved patient care, lowered costs, workplace satisfaction, and healthier communities. Learn more about our work at www.healthteamworks.org.
