

Performance Improvement Facilitator Training

Partner with HealthTeamWorks to train quality improvement practice facilitators for your organization!

Ensure you have highly-trained staff to facilitate, implement and sustain measurable practice transformation as healthcare moves from a fee-for-service model to value-based care. Our coaching, tools and resources—as well as our ongoing mentoring and peer support — maximize learning and retention.

PF 101 Training

The 101 level course is for practice facilitators, coaches and practice managers who support quality improvement within a healthcare setting, within a practice or across a variety of departments and on behalf of practice transformation organizations.

101 Curriculum

- ✓ Create effective Quality Improvement (QI) teams, apply knowledge and identify problems, institute solutions and meet goals
- ✓ Facilitate evidence-based QI tools
- ✓ Understand and utilize data to guide improvement
- ✓ Identify Quadruple Aim data sources, develop strategies to collect, analyze and present the data to maximize improvement
- ✓ Learn to facilitate multi-disciplinary teams to identify and meet objectives
- ✓ And much more!

PF 201 Training

The 201 level course is for advanced practice facilitators, practice managers and quality specialists. Meet the demands of new quality payment programs and acquire the skills to evolve an organization from incremental forms of performance improvement to deep, sustainable transformation.

201 Curriculum

- ✓ Transitioning from fee-for-service payment models to value-based accountable care.
- ✓ Organizational leadership culture and change
- ✓ Advanced session on using data to drive efficiency
- ✓ Levels of organizational change and change management tools & approach
- ✓ Understanding, diagnosing and identifying practice strategies for changing culture
- ✓ Patient-centered design
- ✓ And much more!

Participant Praise

This was a phenomenal opportunity. I learned a lot of useful information that I'm excited to put into practice! Great facilitators!

June 2016 PF 101 participant

It was wonderful to get to bounce ideas off other facilitators and have reminders of the QI tools we sometimes forget about.

March 2016 PF 101 participant

Being in a new role, this training will help guide me into next steps related to practice facilitation and help carry out practice redesign/transformation vision.

February 2017 PF 201 participant

The content presented and the process by which it was presented was a paradigm shift for me. I am now working to create that same experience for the providers and staff with whom I will be working. The 201 training was immediately applicable and excellently executed from start to finish.

February 2017 PF 201 participant
