

## *When Your Health Team Works*

### **Performance Improvement Facilitator Training**

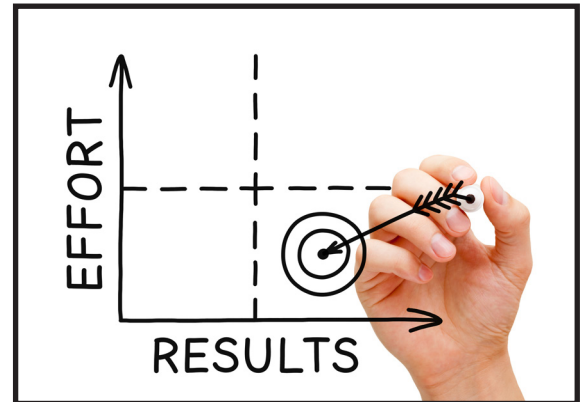

Join us for a **three-day workshop** to learn and develop the basic skills needed to facilitate change in your organization. HealthTeamWorks has been a leader in practice transformation for over ten years, and through this training, we are sharing best practices and effective strategies.

#### **PF 101 Denver-based training: August 15-17, 2017**

The PF 101 level course is for practice facilitators, coaches and practice managers who support quality improvement within a healthcare setting, a practice, across a variety of departments, or on behalf of a practice transformation organization.

#### **Attendees will learn:**

- ✓ How to utilize the most common evidence-based process and quality improvement tools
- ✓ How to use data to inform process and quality improvement opportunities, monitor progress and report outcomes
- ✓ How to engage your team in process and quality improvement activities to drive change

**“** *This was a phenomenal opportunity. I learned a lot of useful information that I'm excited to put into practice!*  
**Great facilitators!**  
*PF 101 participant  
June 2016*
